Important note for Gåva-EL Users

Gåva-EL uses Microsoft's Click-Once deployment system to manage installation and updates. In order for this system to work properly, **Internet Explorer** must be the default Internet browser when Gåva-EL is being installed or updated. **Please follow these steps to make Internet Explorer the default browser before installing or updating Gåva-EL:**

1. Open Internet Explorer
2. From the *Tools* menu (Alt-T) select *Internet Options*
3. Click on the *Programs* tab at the top of the dialog
4. Click on the *Make Default* button (near the bottom of the dialog)

After Gåva-EL has been installed and/or updated, you may switch to a different default browser if you wish.
